USER MANUAL

- Before playing the game, you must log in to system successfully. If you haven't registered before, you will have to do that first.

- The username chosen in register must be between 6-30 characters. Also, the passwords can't be less than 6 characters and if you try to enter 5, it won't get accepted.

- After logging in, you will be directed to the main menu. In the main menu, you can turn the sound effects on and off by clicking the button on the upper left side of the screen.

- From the main menu, you can choose to "get help" to get more information about the game rules.

- When "leaderboard" option is chosen, you will be directed to the worldwide leaderboard. Every time you press the "update leaderboard" button, you can see the most recent high scores all around the world.

- You can also choose to go to the skin store from the main menu. In the skin store, there are some available skins you can buy and use with the coins you have.

- Lastly, you can start the game by clicking the "play" button. By clicking, you can move the bird up and avoid the covid blocks. Each covid block decreases the health by a different amount.

- Green covid blocks: 5% Yellow covid blocks: 15% Red covid blocks: 20% Purple covid blocks: 30%

- Also, you can collect items to increase your health or become immune to the covid blocks for a short time.

- With clicking the button on the upper left, you can pause the game. After pausing, you can either resume or go back to main menu.

- When health percentage is equal to zero, the game will be over and you will be directed to an end menu. High score and current score will be displayed, as well as the options to retry, go back to main menu or check the leaderboard.

- You can exit the game anytime by clicking the "X" button on the right side of the screen.
